Our strategy 2022 - 2026

2022

# Embedding our strategy in all we do

LUU is led by our members. We have sought to build a clear picture of our student body to inform our plans. We've heard from thousands of you, from all backgrounds, on and off campus, exploring how we can best support every student over the next four years.

We've heard first-hand how hard the pandemic was for students and how the university experience changed as a result.

We've heard how students need LUU even more, to learn new skills, feel safe and well, and help support studies. And we've heard how students want to feel part of a dynamic, lively and connected community.

**Fuelling your passions:** Whatever it is you want to do in the future, we will help you achieve it. We're here to help you find your people, fire your passions, and learn new skills and achieve your potential.

**Inspiring you to be your best self** through wellness and balance, so you can be happy, healthy and fulfilled. Life can be tough, so we're here on the bad days as well as the good. Mental health and wellbeing are a big priority, and we'll help you to feel good, celebrate your individuality and be safe.

**Creating a celebrated, fun and lively community you can be proud to be part of** by empowering connections. Time in Leeds is life changing. We're part of a diverse community of over 39,000 students, in one of the UK's best cities.

We will remain funded by our shops, cafes, bars, events and venues, along with a grant from the University of Leeds and other fundraising activities. Every penny spent with us will always count, and every penny we make will continue to be reinvested back into LUU. We'll measure our impact upon nine outcomes that really contribute to students having the best experience, and we'll keep harnessing the expertise and energy that has shaped our new strategy, values and design principles, that provide the bedrock of everything we do.

We look forward to bringing our strategy to life with you.

Sincerely,

Leeds University Union
